

Area of trough solar thermal power station

Overview

CGN New Energy Delingha Solar Thermal Demonstration Power Station, China's first commercial solar thermal demonstration power station, covers an area of 2.46 square kilometers, equivalent to more than 360 standard football fields on the land, 50MW solar thermal project row by row.

Area of trough solar thermal power station

american english

A porch, for me, is an open area attached to the long side of the house that has a porch roof held up by poles or covered by a canopy. It is a place where you can sit and eat outside.
