

Bosnia and Herzegovina s new outdoor power supply market

Overview

Bosnia and Herzegovina will need to build new 110 kV substations, complete the shift to the 20 kV voltage level, and ensure supply quality. It will also have to integrate prosumers, especially households that both consume and produce electricity via rooftop solar panels.

Bosnia and Herzegovina s new outdoor power supply market

Bosnia and Herzegovina

Following robust acceleration in 2022, output growth slowed significantly in the first half of 2023, due mainly to worsening net exports, as external demand has been continuously weakening. Some
