

# Civilian vanadium redox flow battery

## Overview

---

Self-contained and incredibly easy to deploy, they use proven vanadium redox flow technology to store energy in an aqueous solution that never degrades, even under continuous maximum power and depth of discharge cycling. Our technology is non-flammable, and requires little.

## Civilian vanadium redox flow battery

## densityApplicationsDevelopment

The vanadium redox battery (VRB), also known as the vanadium flow battery (VFB) or vanadium redox flow battery (VRFB), is a type of rechargeable flow battery which employs vanadium ions as charge carriers. The battery uses vanadium's ability to exist in a solution in four different oxidation states to make a battery with a single electroactive element instead of two.

## Civilian

The most common meaning for civilian is simply someone who is not in the military. It can also refer to any object that is not military in origin - e.g., "civilian clothes" or "civilian life."

## Civilian

In case of doubt whether a person is a civilian, that person shall be considered to be a civilian. The civilian population comprises all persons who are civilians.
