

Corrosion-resistant solar curtain wall dimensions

Overview

600 mm and up to 17,5 mm thickness are standard. Double glazing: Photovoltaic double glazing units with insulation chambers of different sizes can be produced, with U-values down to 1,1 W/m²K.

References to tolerances for wall thickness and other cross-sectional dimensions of glazed curtain wall members are nominal and in compliance with AA Aluminum Standards and Data.

Curtain Wall Systems

Curtain wall systems are non-structural systems for the external walls of buildings. As a global leader in curtain wall system manufacturing, Kawneer engineers a comprehensive range of curtain wall

Curtain walls

Size and thickness: Our photovoltaic glass modules are produced with size and thickness in order to suit any architectural specification for any individual project. Sizes up to 3.000 mm x 1.600 mm and up to
