

# French energy storage container production plant

## Overview

---

This 240MW/480MWh project will perform three essential functions within France's energy landscape: optimizing the use of decarbonized electricity, providing critical capacity during peak demand periods, and enhancing grid stability with near-instantaneous response capabilities.

## French energy storage container production plant

---

### Akuo Storage in Islands

A mini-grid between the three villages was created to supply the villagers with clean energy. The 3 mini-grids are operated by a local board owned by the villagers.
