

Global Energy Storage Project Dynamics

Global Energy Storage Project Dynamics

[Global Energy Storage Boom: Three Things to Know](#)

Global energy storage additions are on track to set another record in 2025 with the two largest markets - China and US - overcoming adverse policy shifts and tariff turmoil.

DOE Global Energy Storage Database -

The DOE Global Energy Storage Database provides research-grade information on grid-connected energy storage projects and relevant state and

[Global firms need to build geopolitical muscle. Here's how](#)

A new report, Building Geopolitical Muscle, examines how global firms are institutionalizing geopolitics as an organizational capability and embedding it in decision-making. The

[Energy Storage Signals Shift to Renewable Grids](#)

China, the U.S., and the EU lead on global energy storage installations, while emerging markets, such as Chile, are planning notably high shares of energy storage colocated with wind and

[Global Energy Storage Database \(GESDB\) Updates](#)

Projects Navigate energy storage projects with the export-ready results appearing on the page's map. Narrow your search results by: Technological Data, Financial and Ownership Data, and

[Global Cybersecurity Outlook 2025 , World Economic Forum](#)

The Global Cybersecurity Outlook 2025 highlights key trends shaping economies and societies in 2025, along with insights into emerging threats and solutions.

[Global Risks Report 2025 , World Economic Forum](#)

The Global Risks Report 2025 analyses global risks to support decision-makers in balancing current crises and longer-term priorities.

[ASEAN is turning global tensions into regional opportunities](#)

In a time of fragmentation, ASEAN stands out as a rare economic bright spot because it's leveraging global uncertainty into a strategic advantage.

[Project Financing Trends for Global Energy Storage Projects in 2026](#)

Outlook for global energy storage project financing in 2026, covering technology diligence, construction risk, merchant revenue underwriting, and tax equity rules.

How small businesses can navigate global trade in an era of polycrisis

Small businesses can unlock global trade with better data, finance, and digital tools-driving inclusive growth despite persistent barriers.

[Global Energy Storage Database , The Nicholas Institute for Energy](#)

A database that contains energy storage projects and policies listed under the DOE,

Global Energy Storage Market

The report provides a current market overview of the global energy storage industry, including recent trends, drivers, challenges, and outlook in major countries across Europe and the Americas. The

[Modeling Energy Storage's Role in the Power System of the Future](#)

What is the least-cost portfolio of long-duration and multi-day energy storage for meeting New York's clean energy goals and fulfilling its dispatchable emissions-free resource needs?

[Optimizing energy Dynamics: A comprehensive analysis of hybrid](#)

The most suitable hybrid energy system design for hourly changing load demands was examined. This study investigates the optimization of a grid-connected hybrid energy system

[In charts: 7 global shifts defining 2025 so far , World Economic Forum](#)

2025 has been marked by significant global shifts, including increased geopolitical instability, the accelerating impact of AI and a changing labour market.

[How supply chains need to adapt to a shifting global landscape](#)

Global supply chains face rising geopolitical fragmentation and economic divergence, driving four plausible outlooks, from multilateral cooperation to full degradation.

[The global price tag of war in the Middle East](#)

The Iran war's cascading economic fallout is radiating well beyond the Persian Gulf and the wider Middle East, reshaping markets and supply chains potentially for years to come.

Global Risks Report 2026

The Global Risks Report 2026, the 21st edition of this annual report, marks the second half of a turbulent decade. The report analyses global risks through three timeframes to support

[Why we need innovative funding models for global health](#)

Global health gains are at risk. New funding models, regional systems and delivery innovation are vital to build resilient, equitable healthcare worldwide.
