

Global energy storage deployment planning scheme

Global energy storage deployment planning scheme

[Energy Storage Signals Shift to Renewable Grids](#)

China, the U.S., and the EU lead on global energy storage installations, while emerging markets, such as Chile, are planning notably high shares of energy storage colocated with wind and

[The global price tag of war in the Middle East](#)

The Iran war's cascading economic fallout is radiating well beyond the Persian Gulf and the wider Middle East, reshaping markets and supply chains potentially for years to come.

Global Risks Report 2026

The Global Risks Report 2026, the 21st edition of this annual report, marks the second half of a turbulent decade. The report analyses global risks through three timeframes to support

Energy storage

In March 2023, the European Commission published a series of recommendations on energy storage, outlining policy actions that would help ensure greater

[Why we need innovative funding models for global health](#)

Global health gains are at risk. New funding models, regional systems and delivery innovation are vital to build resilient, equitable healthcare worldwide.

Battery Energy Storage Roadmap

This EPRI Battery Energy Storage Roadmap charts a path for advancing deployment of SAFE, RELIABLE, AFFORDABLE, and CLEAN battery energy storage systems (BESS) that also cultivate

[Battery Storage Unlocked: Lessons Learned From Emerging](#)

NREL, in partnership with the Global Climate Action Partnership and the Inter-American Development Bank, initiated the Accelerated Deployment of Battery Storage in RELAC Countries program to assist

[Global energy storage deployment planning](#)

This report, the first in the SFS series, explores the roles and opportunities for new, cost-competitive stationary energy storage with a conceptual framework based on four phases of

[COP29 Global Energy Storage and Grids Pledge](#)

Together, through this pledge, we are committed to making energy storage and action on electricity grids one of the cornerstones of the global energy system, thereby contributing to combating climate

DOE Global Energy Storage Database

The DOE Global Energy Storage Database provides research-grade information on grid-connected energy storage projects and relevant state and federal policies. All data can be exported to Excel or

[How supply chains need to adapt to a shifting global landscape](#)

[The Supercharged Market for Global Energy Storage](#)

Uncover Deloitte's latest insights on global energy storage and how digital technologies and market innovation are helping accelerate battery storage

Global supply chains face rising geopolitical fragmentation and economic divergence, driving four plausible outlooks, from multilateral cooperation to full degradation.

How small businesses can navigate global trade in an era of polycrisis

Small businesses can unlock global trade with better data, finance, and digital tools-driving inclusive growth despite persistent barriers.

[Global firms need to build geopolitical muscle. Here's how](#)

A new report, Building Geopolitical Muscle, examines how global firms are institutionalizing geopolitics as an organizational capability and embedding it in decision-making. The

[Energy Storage Strategy and Roadmap , Department of](#)

The Department of Energy's (DOE) Energy Storage Strategy and Roadmap (SRM) represents a significantly expanded strategic revision on the original ESGC

[In charts: 7 global shifts defining 2025 so far , World Economic Forum](#)

2025 has been marked by significant global shifts, including increased geopolitical instability, the accelerating impact of AI and a changing labour market.

[Global Risks Report 2025 , World Economic Forum](#)

The Global Risks Report 2025 analyses global risks to support decision-makers in balancing current crises and longer-term priorities.

[ASEAN is turning global tensions into regional opportunities](#)

In a time of fragmentation, ASEAN stands out as a rare economic bright spot because it's leveraging global uncertainty into a strategic advantage.

[Global Cybersecurity Outlook 2025 , World Economic Forum](#)

The Global Cybersecurity Outlook 2025 highlights key trends shaping economies and societies in 2025, along with insights into emerging threats and solutions.

[Global energy storage deployment planning scheme](#)

As the world transitions to decarbonized energy systems, emerging long-duration energy storage technologies will be critical for supporting the widescale deployment of
