GRAVITATIONAL PULL See Gravity GRAVITY The force of attraction between two objects which is influenced by the mass of the two objects and the distance between the two objects. GYROSCOPE

What is gravity?

Furthermore, he deduced that gravity forces exist between all objects. Newton's "law" of gravity is a mathematical description of the way bodies are observed to attract one another, based on many

A Snag in Space-Time , NASA Earthdata

An artistic rendering shows that Earth's rotation has dragged space-time with it. A particle dropping from infinity towards the center of the planet would not fall in a straight line; it would

Gravity battery

A gravity battery is a type of energy storage device that stores gravitational energy -the potential energy given to an object when it is raised against the force of gravity.
