

Is it okay to install photovoltaic panels on the pond surface

Overview

Instead of covering valuable farmland or rooftops, solar panels can be placed on the surface of ponds, lakes, reservoirs, or even large aquaculture tanks. This approach uses otherwise unused water surfaces to produce clean electricity.

Is it okay to install photovoltaic panels on the pond surface

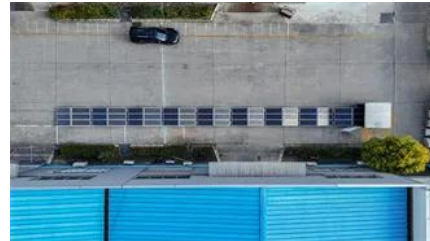

An engineering project for a flood detention pond surface-type floating

However, because water-surface type photovoltaic systems take up a lot of land and can be affected by natural disasters and cause harm to the ecology, this project plans to set up system
