

Malaysia China Sodium Energy Storage Project

Overview

Developed under the NanoMalaysia Energy Storage Technology Initiative (NESTI), the sodium-ion battery utilises a NASICON-based sodium vanadium phosphate (NVP) cathode integrated with graphene nano-additives to enhance electrochemical performance, energy density, and structural.

Malaysia China Sodium Energy Storage Project

[Leader Energy And Plus Xnergy To Deploy Malaysia's](#)

Leader Energy Group Berhad, via its subsidiary Leader Solar Energy II, signed a partnership with Plus Xnergy Services to install Malaysia's first sodium-sulfur

[Leader Energy and Plus Xnergy to Deploy Malaysia's First NaS](#)

Installation of the environmentally friendly system is set to begin in mid-October 2024, with completion anticipated by the end of the year, promising a more stable and economically
