While calculating costs, several internal cost factors have to be considered. Note the use of "costs," which is not the actual selling price, since this can be affected by a variety of factors such as subsidies and taxes:

- o Capital costs tend to be low for gas and oil power stations;
- o moderate for onshore wind turbines and solar PV (photovoltaics);
- o higher for coal plants and higher still for waste-to-energy, wave and tidal, solar thermal,
