

# Principle of solar power generation in the gate area

## Overview

---

Solar powered gate systems are automated access-control systems that use photovoltaic panels to generate DC power which charges batteries that feed the gate opener control box and motor, enabling reliable operation without grid power.

### Solar Power for Driveway Gates

In general, it is recommended that solar be used when providing electricity to the gate becomes economically prohibitive. A rule of thumb is; Use solar if the power run exceeds 300 feet.

### Service and support , Principal

Find options to get help for your Principal account or to find more information on Principal products and services.

Does your employer offer a 401(k), 403(b) or governmental 457(b) plan? These common retirement savings plans can help make the process of saving for retirement easier.

### **solar-at-gate**

Following the assessment of several potential measures, a solar-at-gate pilot project was implemented at Norman Manley International Airport in Kingston, Jamaica.
