

Sleeping under the photovoltaic panels

Overview

While myths around solar panel radiation risk circulate online, there is no evidence proving that rooftop solar systems cause harm to people living underneath. Most concerns stem from confusion about electromagnetic fields (EMFs), which we'll address shortly.

Sleeping under the photovoltaic panels

Green Job Hazards

Workers who install and/or maintain solar panels often work on roofs, use ladders and scaffolding, are in proximity of ledges and sunroofs, and are exposed to fall hazards.
