

# The latest solar power generation materials

Features and applications:  
Power: 1000-1500W

Dimensions:  
1000x500x1500mm

## Overview

---

New sophisticated materials including perovskites, tandem cells, quantum dots, and ultra-thin solar films have improved performance to new historic efficiency milestones. The new body of solar technology benefits from a significant breakthrough which exceeds traditional.
