

Overview

As part of the Dniester Hydro Power Complex, the pumped storage power station (PSPS) was planned in the 1970s along with two dams (Dniester I & II) and a nuclear power plant. In 1983, Dniester II, a dam which creates the PSPS's lower reservoir, was completed. The PSPS was approved by 1988 and construction began that same year. Three years later in 1991 though, construction was suspended due to a funding fallout from the. The project was re-approved in 1993 and c.
